

Erratum for

Godwin, K.E., Almeda, M.V., Petroccia, M., Baker, R.S., Fisher, A.V. (2013) Classroom activities and off-task behavior in elementary school children. Poster paper. *Proceedings of the Annual Meeting of the Cognitive Science Society*, 2428-2433

In the published version of this article, observations that were coded as *Unknown* behavior were mistakenly included in data analysis. Because this type of behavior cannot be considered as on-task or off-task, the *Unknown* category does not provide any useful information about students' patterns of attention allocation. All observations coded as *Unknown* were dropped from the corrected regression models.

Our apologies for the error. A corrected version of this article is available online. There are no substantial changes to the original pattern of results reported.
